AN ENTERPRISING INSTITUTION

Few people realize that within the city limits of Glendale there are quite a number of large thriving industries, employing in the aggregate over one thousand people. One of these industries is the Glendale Laundry, situated near the foothills in North Glendale. This industry started with Glendale, and has constantly increased its plant in size, as well as with the latest improved machinery. A special feature which has always been taken into consideration is the sanitation. The plant is one of the most sanitary of its kind, and more so than a good many others.

The Glendale Laundry employs upward of a hundred people, who are thoroughly experienced in their particular line. On account of it being a Glendale enterprise, employing such a large number of people, with a pay roll of \$600 per week, which necessarily means more money to Glendale's business men and to the city in general, people should patronize their home industry in preference to outside laundries. But, although it may seem strange, the Glendale Laundry does not solicit its business in this way. They get their business because they turn out Quality Laundry, with an Efficient Service at a Reasonable Price. Too much stress can not be laid upon this fact, for it has been only a short time since the cut-rate laundries of Los Angeles would do your work cheaper than they could, but they could not give the quality.

An efficient man is the manager of the Glendale Laundry. His name is Hewitt—Mr. W. E. Hewitt. He is capable, energetic and progressive. He believes in the future of Glendale.

All things being equal, you should patronize this laundry, because you help Glendale in doing so. At least, give them a trial.

THRIFT MEANS

1. **Planning**—taking into consideration the needs of yourself, your family, and your country, not only for the present but also for the future.

2. **Spending wisely** to meet important present needs—getting the most for your money today and having something left for the morrow.

3. **Investing the savings**—the part which the unthrifty spend to satisfy trifling or unimportant wants—so that you may greet with happy countenance all important future needs and opportunities that knock at your door.

War Savings Stamps hold your money for opportunity's call.

War Savings Stamps beget thrift. Thrift begets success.

War Savings Stamps bought with today's savings provide for the rainy tomorrow.

Don't forget that the war bills must be paid. Keep your War Savings Stamps and buy more.

TROPICO HERALD

"Entered as second-class matter January 25, 1918, at the post office at Los Angeles, Cal., under the Act of March 3, 1879." :: Devoted to the best interests and future welfare of Glendale, San Fernando Valley and Southern California. :: Telephone, Glendale 1500 :: Subscription, \$1.00 per year :: Advertising rates upon request.

A self-acting sofa just large enough for two has been invented by a Tropico man. If properly wound up, it will begin to ring a warning bell just before ten o'clock. At one minute past ten, it splits apart, and while one half carries the daughter up stairs, the other half kicks the young man out the door. They will come high, nevertheless several parties in Tropico feel that one of these sofas will be a household necessity in the near future.

THE PUBLIC PARK QUESTION

The main question before the Greater Glendale Development Association seems at present to have developed into a "Public Park Boom" with the avowed purpose of purchasing the present Sanitarium Block and the block west of it except that part occupied by the Methodist Church.

The question of cost doesn't seem to "cut much ice," as the committee proposes to petition the Board of Trustees to call a bond election, just as soon as the Sanitarium people can decide how much (?) they will take for their property, and the committee can estimate what the proposed improvements will cost.

We hope that this bond election can be combined with the other big one contemplated by the Board of Trustees, with which it is planned to get the city "out of the financial hole" into which it was plunged by the public service department, and also raise a fund for further betterment (?) of the water system (as noted in their "letter of explanation").

LOCAL HAPPENINGS.

The "Knights of Columbus Bulletin," a Los Angeles publication, mentions the fact that Father James S. O'Neill, with a number of Glendale Knights, attended a special meeting of Los Angeles Knights Thursday evening of last week.

The following guests were entertained on Thursday at five o'clock dinner by Mrs. Henry Grauel, of Perlita Avenue: Rev. and Mrs. Mead, of Edendale; Mr. and Mrs. R. L. Wall, Mrs. Jackson, Mrs. Jennie Black, Misses Emla and Frances Black and Misses Annie and Mary Clift, of Los Angeles.

You do not have to go up to Glendale proper to get your flowers. There is a florist at 1004 South Brand, just next door to the L. G. Scovern Co., and they have a very pretty little place there, as well as a large variety of flowers, seeds, etc. Mrs. Corbaley, who has been a Glendale woman for several years, is in charge. They deliver to any part of the city, so if you cannot go and pick out your own flowers, you can telephone your order, and it will receive personal attention, which is quite an item in buying flowers.

2-cent letter postage and 1-cent postal card after July 1st.

The P.-T. A. of the Cerritos Avenue School are out hustling for members, with 100 as their aim, and as at their meeting last week they had enrolled 94, it seems that they will soon reach goal.

Mr. and Mrs. C. E. Davis, of Topeka Kan., arrived last week for a visit with Mrs. Davis's sister, Mrs. William Dransfield, on Glendale Avenue. At present they are visiting relatives in Los Angeles. If they like it here, they will probably make it their future home.

Mr. Frank Ballentyne and family, of Los Angeles, visited Sunday at the home of George Ballentyne on Glendale Avenue.

"Fathers' Night" at the Cerritos Avenue School has been postponed indefinitely.

Mrs. J. A. Stone and little son, of Brand Boulevard, left this week for a visit with her sister in Chicago, and probably will also visit in New York.

The Victory Liberty Loan campaign is scheduled to open Monday, April 21, and to close Saturday night, May 10th.

Mr. L. J. Bowers, of Porterville, visited a few days this week at the home of Perry Oswald, on West Cypress Street.

Mr. and Mrs. Albert Gabaig have moved from their home at 1417 South Central Avenue, and are now living on the North Richardson ranch.

Miss Adda Burch was a guest of Mrs. Inez Johnson, at Hollywood, at a birthday luncheon, on Tuesday.

Fred C. Grauel attended the all-day Holiness meeting at Huntington Beach, on Tuesday.

The banks used to buy United States bonds bearing 2 per cent interest before the war. That's how good the credit of the United States is.

The \$100 you put into a Victory Liberty Bond will be worth \$125 plus interest when prices settle down. A dollar is worth what you can buy with it.

Better have the bonds of the United States in the hands of 30,000,000 ordinary citizens than concentrated in the hands of a few rich men. Think of that when Uncle Sam offers you a Victory Liberty Bond.

Don't think you have sacrificed because you may be paying for your interest-bearing Fourth Liberty Loan Bonds. These fellows back from France legless, armless or sightless don't think they have sacrificed. They simply think they did their duty.

In the Salvation Army headquarters in San Francisco where discharged soldiers are helped during the period from their discharge until they secure a job, a steady stream of men is passing through. Many are supplied with transportation to their home cities, where jobs await them, others are given civilian clothes that they enter upon jobs they have secured, and still others are advanced small loans to tide them over a difficult period. Just as the Salvation Army lassies supplied hot coffee and doughnuts to the soldiers overseas, so are the Salvation Army officers finding jobs and helping the soldiers here.

Every advertiser in the Herald represents a successful business. Not a "dead-head" amongst them. A word to the wise is sufficient.

RACING AEROPLANES AT VENICE

Meyerhoffer's six green speedsters of the air will meet in a ten-mile aerial race at Venice on Sunday, March 16th. All of these machines can make an average of 130 miles an hour, and will be tuned up to go the limit when they meet in competition.

Two army flyers are among the line-up of aviators, and some sensational stunts are promised. Following the race there will be fancy flying, looping, spiraling and other aerial acts that will furnish a good sized crowd

of thrills.

The Green Event will have several other notable features in addition to the aeroplane race. On the Lagoon the Light Green and Dark Green bathing beauties will stage a canoe football match at 2 p. m. There will be plenty of fun attached to this game, as when the contest gets close there will be many a spill that will put the pretty bathing girl into the cold water of the lagoon. At the dance pavilion the green ball will open at 2 p. m. with an all-day program of features. Evelyn Ostrum and the Venice band will provide an exceptional concert, while pretty green souvenirs will be distributed on the pier and Ocean Front.

The evening will be replete with features including a magnificent fireworks display from the end of the Venice pier. Every part of the program will be green, and the closing number will be the Meyerhoffer planes with green lights and green fireworks tumbling over one another in midair in some daring night flying.

Venice, the Spot to spend your day on the 16th of March.

The Pacific Garage has opened up under new management, and is now ready for business under the firm name of Citte & Van Horn.

The young men are expert mechanics, and have installed a complete outfit of the necessary machinery for a first-class garage.

Besides the regular automobile repairs and accessories, they will do acetylene welding, as well as vulcanizing and retreading of tires. Residents of this section should encourage the new firm by their patronage, and incidentally help bring back prosperity to the business locality.

THE DOUGHBOYS HELD THEIR GROUND

From the moment that American commander said, "Retreat—hell, we just got here!" in answer to the importunities of the hard-pressed French, the American doughboys held every inch of ground they took. They are now holding ground in Germany. It cost them flesh and blood, comrades dead and wounded, to win and hold their ground. It is costing them the rigors of army life and the opportunity of getting back to paying jobs to hold the German soil where they are now.

Are you holding your Liberty Bonds? Or, are you giving up hard won terrain to the enemy?

The boys over there can't retreat. They have to stick. They will go farther into Germany, probably. They can't say the war is over and give up.

The least any American can do is to hold his Liberty Bonds—hold them out of respect for the men still under arms if for no other reason. When you sell a Liberty Bond or trade it for some stock, worthless or otherwise, you are retreating.

That American commander who said, "Retreat—hell, we just got here!" was American flesh and bone. Are you?

Then hold your bonds. Put them in the bank. Borrow on them if you have to. But hold them.

EDISON-TRAINED BULLETS

Two negroes were walking along Ninth Avenue discussing the wonderful inventions brought about by the war.

"Yes, sah," one said, "an' a friend of mine who knows all about it says dis heah man Edison has done gone and invented a magnetized bullet dat can't miss a German, kase if dere's one in a hundred yards de bullet is drawn right smack against his steel helmet. Yes, sah, an' he's done invented another one with a return attachment. Whenever dat bullet don't hit nothin', it comes right straight back to de American lines."

"Dat's what I call inventin'," exclaimed the other. "But say, how about dem comin' back bullets? What do dey do to keep 'em from hittin' ouah men?"

"Well, mah frien' didn't tell me about it, but if Mr. Edison made 'em you can bet youah life he's got 'em trained. You don't s'pose he'd let 'em kill any Americans, do you? No, sah. He's got 'em fixed so's dey jes' ease back down aroun' de gunner's feet an' say: 'Dey's all dead in dat trench, boss. Send me to a live place where I's got a chancet to do somethin'!'"—New York Herald.

LEAVES LEGS IN FRANCE; DANCES FOXTROT HERE

Uncle Sam Gives Soldier Boy New Lease on Life.

Lillard Evans is a colored soldier boy who had both legs blown off in action. He lives for the present at Letterman General Hospital at the Presidio in San Francisco. He can and does dance fox trots and one-steps. How? Why?

Of course to dance a fox trot or a one-step a fellow has to have legs—good legs. Well, Evans has them—not his own legs of flesh and bone, but his own willow legs with joints and everything. He is going to leave Letterman pretty soon and go back to work and make his living and probably get married and raise children. That's the how.

The why of it is—the government of the United States has gone in for leg and arm making. It is giving a specially built leg or arm or hand or a

pair or legs or arms or hands to every soldier who lost his legs or arms in the war. At Letterman in particular they are making legs and arms and hands in their own workshop. They are making them because they have hit upon a better artificial limb than the private manufacturers are turning out, not excepting the "Liberty Leg" which the government supplies in most cases.

This is one phase of the reconstruction work that Uncle Sam is quietly carrying on. It is one of the least expensive, but it is costing hundreds of thousands of dollars. Remember that when Uncle Sam come aknocking at your door with the Victory Liberty Loan. Much of the money you will lend is going to regenerate these men who gave of their flesh and blood for their country.
